

A glowing Edison-style light bulb is centered within a dark, oval-shaped lampshade. The bulb's filament is visible and emits a warm, yellow light. The lampshade has a smooth, slightly reflective surface. A thin vertical line runs through the center of the image, passing through the bulb and the text.

Nuova Fulgor/ Il Vetro Veneziano e il Made in Italy

Il vetro di Murano è famoso in tutto il mondo quale lavorazione artigianale di alto pregio e dall'antica tradizione. L'arte del vetro di Murano come la conosciamo oggi si è sviluppata tra il 1400 e il 1800, con radici ancor più indietro nel tempo che rinviano alla lavorazione del vetro d'epoca Romana e Bizantina. A Murano, isola a due passi da Venezia, centro abitato tra i più grandi della laguna, basta entrare in una delle tante botteghe dei maestri vetrai per fare un tuffo indietro nel tempo, per entrare in un'atmosfera quasi magica, ammirando le lavorazioni artigianali del vetro soffiato e i prodotti finiti. I prodotti Fulgor inoltre sono dotati di montature realizzate unicamente grazie al Knowhow dei più ricercati artigiani Italiani, per regalare al cliente un prodotto che va oltre al solo oggetto fisico ma regala una storia, un'emozione.
